Multiple Countries

Expatriate evacuation

Solution within 24 hours

## Evacuation to four countries within 24 hours of request

As a result of a significant increase in COVID-19 cases and a strained local health system in Papua New Guinea one of Australia's major retail banks requested the evacuation of non-essential expatriate staff to their home locations. This included Fiji, New Zealand, Pakistan and Australia. Using a mixture of charter and commercial flights this was achieved within 24 hours.
