

G|24 GlobalAlert by SAFETURE®

We've got you covered

When an incident or crisis occurs, our platform gives you an overview of the incident and which employees and facilities could be impacted, assisting you in making the right decisions and enabling you to provide support faster.

Create secure communication

With our patented technology you can easily communicate with employees and facilities with the highest accuracy and security, no matter where they are.

Accurate Information Updates

Get relevant information about what has happened and advice on how to act. Carefully researched and vetted information in the Safeture platform is an indispensable tool for acting to protect lives.

Personnel Locator

Save crucial time by locating your employees instantly and get an overview of your organization's global operations. Safeture's platform delivers real-time alerts based on actual location.
